

## more than a travel agency

### Consultive partnerships

reducing the cost of travel while consistently delivering superior service and value.

## proudly independent global buying power of the largest corporate travel providers.

Travel Beyond was founded in 2001 by Managing Director, Tim Lane, after 15 years in the travel industry.

We are proudly independent yet with the global buying power of the largest corporate travel providers (member of CT Partners Radius) and we have a team of experts based in both Sydney and Melbourne.

Our business services three segments:

1. Traditional business travel to SME's across a variety of industries.
2. Entertainment and production travel – film and television, advertising agencies, bands and music/entertainment organisations.
3. Personal travel – a dedicated service for all of our clients own needs.

Key facts:

- Fast Growing – we have experienced growth of over 20% year-on-year. This growth has been at a controlled level and we have the team and systems to take on further clients of the right fit.
- Keys to our growth – SERVICE and a passion for relationship building and referral from current clients and suppliers. We are proud of our client retention rates.
- As a medium-sized corporate TMC we are proud of our ongoing Qantas Platinum Agent Status which reflects our growth and our ability to “punch above our weight”.
